Nilombot, Sta. Barbara, Pangasinan, Philippines

Summary

System Development student at PHINMA University of Pangasinan. Skilled in problem-solving, teamwork, and project coordination with experience in UI/UX, testing, debugging, and documentation. Adaptable, eager to learn, and committed to delivering high-quality, user-centered applications that align with organizational goals and contribute to meaningful projects.

Education

PHINMA - University of Pangasinan

Bachelor of Science in Information Technology Major in Systems Development, June 2022 - Present

Daniel Maramba National High School

Senior High School, Honor Student 2020-2022

Technical Skills

Programming Languages: JavaScript, C++, Kotlin, Dart

Frontend Technologies and Frameworks: HTML, CSS, Flutter

Backend Technologies and Frameworks: Node.js, PHP

Database & Caching: MySQL, MongoDB

Version Control & Collaboration: GitHub, Figma

Soft Skills

Time Management, Adaptability, Teamwork & Collaboration, Multi-tasking, Quality Assurance, and Trainability.

Projects

AccessAbility

Figma, Dart, Flutter, MongoDB, Google API

AccessAbility is a GPS-based navigation system tailored for Persons with Disabilities (PWDs). It ensures seamless mobility by providing accessible routes, real-time navigation, and user-friendly design, promoting inclusivity and independence.

After Earth: Nuclear Fallout

Figma, C#, Unity

After Earth: Nuclear Fallout is a narrative-driven action-adventure game highlighting environmental collapse and sustainability. It features immersive exploration, strategic combat, and impactful player choices that emphasize awareness of global issues.

Cryptotel

Figma, Dart, Flutter, MongoDB, Vercel

Cryptotel is a modern hotel and restaurant booking application with integrated cryptocurrency payments. It provides fast, secure, and hassle-free reservations while combining convenience with financial technology innovation.

Phinma Diner

Figma, Java, MySQL

Phinma Diner is a reservation platform designed for PHINMA students and professors. It streamlines meal bookings within the community, ensuring convenience and efficient service management.

Certificates

Best in UI/UX Design Award

PHINMA University of Pangasinan, 2025
